It is the first of the two volumes that form the training foundation for the Tri-Service Dental Laboratory Apprentice Course. In addition, it is a working reference for all dental laboratory technicians. This book presents the fundamentals of removable denture prosthetics and the Biofunctional Prosthetic System (BPS) in an easy-to-learn clinical technique. Dr Abe explains, step-by-step, how to fabricate a BPS denture and then outlines the procedure necessary for fabrication of suction-effective dentures, which includes a new approach to impression taking that uses a frame cut-back tray to record the specific anatomical features of dental soft tissue and the underlying bony structures and therefore allows more reliable denture fabrication and better suction of the denture. Included are discussions related to the management of difficult cases of total edentulism in both the maxilla and mandible and the esthetic enhancement of the patient. A great resource for any prosthodontist. The job market continues to change. Highly skilled and specialized workers are in demand. Traditional education cannot meet all

the needs to create specialty skill workers. Certification provides up-to-date training and development while promoting individual or professional skills and knowledge in a focused manner. Certification as a way of continuing professional education can also be more cost effective. An illustrated, evidence-based approach shows how MDIs can provide successful outcomes in long-term use and also in shorter-term transitional applications. This success is proven by 20 years of clinical trials and research, showing that the Sendax Mini Dental Implant System can benefit your patients with faster surgery, reduced pain, faster healing, and less risk of infection. Written by noted implant dentistry expert Dr. Victor I. Sendax, this text allows you to offer patients a minimally invasive, immediately functional, and lower-cost alternative to traditional dental implants. Easy-to-understand coverage from different perspectives allows you to access information most applicable to your own practice, and to learn more about the other roles involved in achieving successful outcomes, including the general practitioner, periodontist, oral & maxillofacial surgeon, maxillofacial prosthodontist, orthodontist, and laboratory technician. An

advanced approach with evidence-based outcomes clearly demonstrates the success of mini dental implant technology and keeps you on the cutting edge of the science of implantology. Well-known author Dr. Victor I. Sendax is a diplomate, past president of The American Board of Oral Implantology/Implant Dentistry and The American Academy of Implant Dentistry, and winner of the 2012 AAID Research Foundation Award. Step-by-step instructions show the basic protocol for Sendax MDI insertion and reconstruction. Highly regarded contributors add their expertise to discussions of MDI technology and practice. A discussion of Engineering Assisted Surgery™ (EASTM) enhances your care by improving diagnosis and 3-D planning, reducing intervention trauma, and improving the standardization of quality and outcomes. Clinician's MDI Forum includes Q & A sections allowing you to quickly find answers to commonly asked questions.
